## Chapter - 5

### jQuery CDN

#### What is CDN ?

A Content Delivery Network (CDN) is a system of computers that exist all over the world and cache files for users to access. CDNs can greatly reduce the load time of a page by offering files at a higher bandwidth from a server that is physically closer to your visitor.

STP COMPUTER EDUCATION

#### Benefits of jQuery CDN

1. Different domains
2. Files may be pre-cached
3. Distributed data centres
4. Built-in version control
5. Boosts performance and saves money
